Official representative
in your region:

Enterprise quality management system
is certified to standards
ISO 9001:2015,
14001:2015,
OHSAS 18001:2007

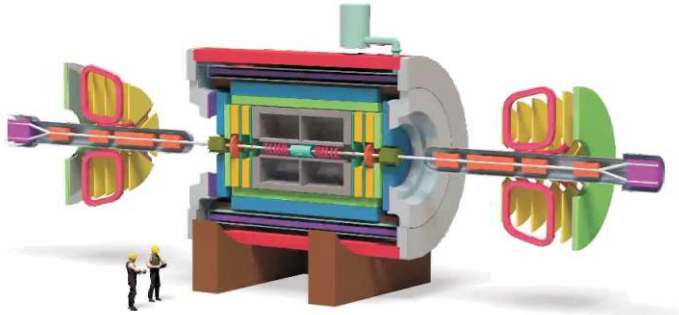

Your production site
in Russia for developing
and manufacturing of industrial
equipment

Present on international markets
and in Russia since 2001

Our achievements

- ★ Design and manufacture of equipment for the national Russian “mega-science” project - the NICA collider

- ★ Design and manufacturing of nonstandard complex equipment

- ★ Equipment for glass processing (cutting and assembly for insulated glass units, laser glass cutting)

- ★ Pelcom is the glass processing patents holder

Our possibilities

Design and development of documentation from the draft design to turn-key project

Development of production automation systems

Metal laser cutting and bending

Mechanical metalworking on modern CNC lathes and milling machines

Mechanical work and welding

Painting operations

Assembly operations

Installation and commissioning by the end user

Service and maintenance

Worldwide shipping

Our customers and partners

- Your reliable partner in any project implementation!
